

## Introduction

One Page 40k is a single-page miniature wargame set in the Warhammer 40,000 universe. Gameplay is focused around alternating activations and simple combat mechanics that keep both players engaged at all times.

All you need to play are some Warhammer 40,000 miniatures, a flat 6'x4' playing area, a measuring tape in inches and a couple of six-sided dice. The game can also be played with miniatures from other manufacturers.

## One Page 40k - Main Rulebook v3.3.1

by OnePageAnon (http://onepagerules.wordpress.com/)

## **General Principles**

Terrain

**Special Rules** 

The Most Important Rule: Whenever a rule is unclear or does not seem quite right, use common sense and personal preference. Have fun! Units: Each unit consists of one or more models acting as a single entity. You can find unit profiles for each faction in their respective army page.

Quality Tests: Whenever you must take a Quality test roll one six-sided die trying to score the unit's Quality value or higher, which counts as a success. Line of Sight: If you can draw a straight line from the attacker to the target without passing through any solid obstacle, then he has line of sight.

### Before we begin...

Army Composition: Each player may take up to 750pts worth of units and upgrades in his army. Each army may only have one Hero unit. Preparation: The game is played on a flat 6'x4' surface, with at least 10 pieces of terrain on it. The players roll-off, and the winner chooses on what table edge to deploy first, then players alternate in placing one unit each within 12" of their edge. Mission: After 4 rounds the game ends, and both players sum the point value of all enemy units they completely destroyed or that are pinned. The player with the most points wins

## **Playing the Game**

The game is played in rounds, in which players alternate in activating a single unit each until all units have been activated. The player that won deployment goes first on the first round, and in each new round the player that finished activating first in the previous round goes first.

### Activation

The player declares which unit he wishes to activate, and it may do one of the following:

Action	Move	Notes
Hold	0"	May shoot.
Walk	6"	May shoot after moving.
Run	12"	May not shoot.
Assault	12"	Move into melee.

## Moving

Units may move and turn in any direction regardless of the models facing, and they may only move within 1" of other units if assaulting. All members of a unit must remain within 2" of at least one other member and within 12" of all other members.

## Shooting

All models in a unit that are in range and have line of sight to an enemy unit may fire at it. Models may fire all their weapons when using Hold actions, and only one when using Walk actions. Shooting models take one Quality test per Attack, and each success is a hit. The target then takes as many Quality tests as hits, and each success is a block. Every unblocked hit causes a wound. For every wound remove one model from the target unit (defender may remove them in any order).

### Melee

Assaulting models move into contact or as close as possible to enemy models, and then defenders do the same by moving 3". All assaulting models within 2" of an enemy may attack with all melee weapons. which is resolved like shooting. Then any remaining defenders may strike back in the same way. Once both sides have attacked compare how many wounds each unit caused, and if one caused less then it must take a morale test. If either unit is destroyed the other may move by up to 3", if not then assaulting models must move back by 1".

## Morale

Whenever a unit takes a wound which brings it down to half or less of its total size/tough, then it must take a morale test. The unit takes a Quality test and if failed it is Pinned (spends next activation idle and gets Unwieldy). If the failed test was from Melee and it is down to half or less of its total size/tough, then it Routs (remove from play).

Cover (forests, ruins, sandbags, etc.): Units with most models within or behind cover terrain ignore shooting hits on 5+ (doesn't stack with Armored). Difficult Terrain (woods, mud, rivers, etc.): Units moving through difficult terrain can't move more than 6" at a time, regardless of action

Dangerous Terrain (quicksand, razor wire, mine fields, etc.): Roll one die for every model that moves across dangerous terrain or activates in it. The model takes one automatic wound if you roll a 1. Elevation (cliffs, roofs, ledges, etc.): Units assaulting onto higher elevation get Unwieldy, and units taking shots from lower elevation count as in Cover.

### **Units Types**

Infantry: Any unit that is not a Vehicle unit counts as Infantry. You may deploy two copies of the same Infantry unit as one big unit, however upgrades that affect all models must be bought for both.

Heroes/Psykers: May be deployed as part of friendly Infantry units of same Quality.

Vehicles: Always have Armored and Impact(D6). Move by up to 12" when using Walk actions and 18" when using Run/Assault actions. When using Hold actions they may pivot by up to 180°, else they may pivot once by up to 90° at any point. When using Walk actions they may move sideways or backward by half their move. Whenever a Vehicle takes one or more wounds roll one die and add the number of wounds taken to the roll:

Result	Effect
Result	Effect

Result	Effect		
2-5	Glanced (Doesn't suffer any further		
	negative effects)		
6-7	Shaken (Must re-roll successful hits		
	until the end of its next activation)		
8+	Immobile (May not move or pivot for		
	the rest of the game)		
If the Veh	f the Vahicle is hit in the side add +1 to this roll if it		

is hit in the rear add +2 to this roll. Vehicles that are Immobile and suffer an additional Immobile result take a wound instead (don't roll again).

### Weapons

Weapons with a range value provide attack dice to shooting, others to melee. Units without a melee weapon count as using Light CCWs/Claws.

CCW/Claws: No special rules. Powersword: Counts as Piercing.

Powerfist: Counts as Piercing and Rending.

Name	Range	Attacks
Light	-	1
Medium	-	2
Heavy	-	3
Master	-	4
Force	-	5
Pistol	12"	1
Shotgun	12"	2
Flamer	12"	6
Heavy Flamer	12"	6р
Plasma Pistol	12"	3x
Meltagun	12"	6x
Carbine	18"	1
Assault Rifle	24"	1
Minigun	24"	3
Grenade Launcher	24"	D3p
Plasmagun	24"	3x
Multi-Melta	24"	6x
Rifle	30"	1
Machinegun	36"	3
Plasma Cannon	36"	3р
Autocannon	48"	2p
Missile Launcher	48"	D3p
Battle Cannon	48"	9p
Lascannon	48"	6x

p = Weapon counts as having the Piercing rule. x = Weapon counts as having the Piercing rule and all wounds must be assigned to a single model.

Armored: Whenever this unit takes hits roll one die for each hit, on a 4+ it is ignored. This rule only applies if at least half of the models in a unit have it. **Deep Strike:** You may choose not to deploy this unit with your army, and instead keep it in reserve. After round 1 you may roll one die at the beginning of each round, and on a 4+ you may place the unit anywhere over 6" away from enemy units. Then roll one die, on a 1-2 the opponent may move the unit by up to 12" (must be in a valid position). On the last round the unit arrives automatically.

Fast: This unit moves +3" when using Walk actions and +6" when using Run/Assault actions.

Fear: Enemy units without the Fear special rule must take a morale test before fighting melee with this unit. If failed they get Unwieldy for that melee. Fearless: When taking morale tests roll one extra die and pick the highest result.

Flying: This unit may move through other units and obstacles, and it may ignore terrain effects.

Furious: This model has +1 Attack in melee when using Assault actions, and may use an Assault action at half its move to disembark from transports.

**Impact(X):** This unit deals X automatic hits for each model with this rule when assaulting.

**Indirect:** This weapon may be fired at enemies that are not within line of sight, however targets not within line of sight count as being in Cover.

**Limited:** This weapon may only be used once. Linked: This weapon may re-roll failed hits.

Piercing: This weapon ignores the Armored special rule. If a unit without Armored is by hit then it must re-roll successful blocks instead.

Poison: Infantry must re-roll successful blocks. Psyker(X): Every round all players get D6 power dice to use for that round. Psykers may manifest Powers at any point before attacking, and they require no line of sight. You may try to manifest any Power once per round by rolling any number of power dice and adding +X to the result. If you roll the same number or higher than the one in brackets you may resolve all effects. If a Psyker rolls two or more 6s it immediately takes D3 automatic wounds.

roll one die for each wound, on a 5+ it is ignored. Rending: Whenever this weapon hits on a roll of 6 it causes one automatic wound. Note that these hits can't be ignored by the Armored special rule.

Regeneration: Whenever this unit takes wounds

Scout: This unit is deployed after all other nonscout units have been deployed. You may place this unit anywhere on the table over 12" away from enemy units (if both players have Scout units roll-off to see who deploys first).

Sniper: Models firing this weapon always hit on 2+ and ignore cover. The attacker may pick which model from the target unit is hit.

**Stealth:** This unit always counts as being in Cover. Strider: This unit treats difficult terrain as open terrain for the purpose of movement.

**Tough(X):** This model must accumulate X wounds before being removed as a casualty. If a unit with the special rule joins a unit without it you must either accumulate wounds until all models with this rule have been killed, or remove regular models as casualties before starting to accumulate wounds. Note that you must first accumulate wounds on a single model with this special rule until it is killed before you start accumulating them on another. Transport(X): This unit may transport up to X Infantry models in its cargo. Infantry units may embark by moving into contact with a transport, and embarked units may use a Walk action to disembark. Units may also be deployed within a transport at the beginning of the game. If a unit is within a transport when it is destroyed it must take a Dangerous Terrain test, is Pinned, and surviving models must be placed within 6" of the transport. Unwieldy: This weapon must re-roll hits.

## **Advanced Rules**

### **Advanced Psykery**

When an enemy Psyker tries to manifest a Psychic Power you may try to deny it. Both players declare the number of power dice they are using, and then roll at the same time. If you have a Psyker in your army then you may add +X to the result, however then if you roll two or more 6s it immediately takes D3 automatic wounds. If you roll a higher number than the manifesting Psyker, then the power's effects are not resolved.

### **Mysterious Terrain**

When using mysterious terrain rules roll on the table whenever a unit enters a piece of terrain for the first time. The result is permanent and is applied on top of any other rules the terrain has.

Result	Effect
1-2	None.
3	Units in this terrain take D3 wounds when moving into/through it.
4	Units in this terrain take D6 hits when moving into/through it.
5	Units in this terrain get the Linked special rule.
6	Units assaulting into this terrain get the Unwieldy special rule.

### **Mysterious Objectives**

When using mysterious objectives rules roll on the table whenever a unit moves within 3" of an objective marker for the first time. The result is permanent as long as the marker is alive.

Result	Effect		
1-2	None.		
3	Units within 3" of the marker count as being in Dangerous terrain.		
4	Units within 3" of the marker count as being in Difficult terrain.		
5	Units within 3" of the marker get the Fear special rule.		
6	Units within 3" of the marker get the Armored special rule.		

## **Solid Buildings**

Solid buildings are terrain models that consist of one solid block which cannot be opened or reached into. Solid buildings have the Transport special rule and units may shoot into and out of any side of the building that has some sort of firing port (doors, windows, etc.), always counting as shooting from the topmost firing port. When shooting at units inside a building the target counts as in Cover. Whenever a unit assaults a building, only one unit inside of it is targeted (defender may choose which), and the attackers are moved into base contact with the building. Solid buildings can come in many shapes and materials, so we have provided some examples you can use as a guideline:

Building	Transport
Wooden Sheds	6
Brick Houses	11
Apartment Blocks	21
Small Bunkers	11
Large Bunkers	21

### Missions

When using the following missions the table and armies are set up as described in the core rules. You can either choose any of these or play with a random objective by rolling one die on this table:

random objective by rolling one die on this table.				
Result	Mission			
1	Duel			
2	Seize Ground			
3	Relic Hunt			
4	Sabotage			
5	Breakthrough			
6	King of the Hill			

- **1 Duel:** After 4 rounds the game ends, and both players sum the point value of all enemy units they completely destroyed or that are pinned. The player with the most points wins.
- **2 Seize Ground:** Before deploying armies place D3+2 objective markers on the table. Roll-off to see who goes first, and then alternate in placing one marker each at least 12" away from any table edge and from any other marker. After 4 rounds the game is over, and both players check if they have any units within 3" of an objective marker that are not pinned, and if no enemy units are within 3" of that marker it counts as seized. The player with the most seized objective markers wins.
- **3 Relic Hunt:** Before deploying armies place 3 relic markers on the table. Roll-off to see who goes first, and then alternate in placing one relic marker each at least 12" away from any table edge and from any other relic marker. If a unit moves into contact with the marker it picks it up, and if it is destroyed the marker is dropped on the spot. Units holding markers may move off any table edge, removing the unit and the marker. After 4 rounds the game is over, and both players sum how many relic markers they are holding or they moved off the table. The player with the most relic markers wins.
- **4 Sabotage:** Before deploying armies place two relay markers on the table. Roll-off to see who goes first, and then place one relay marker within your deployment zone, at least 6" away from any table edge. If a unit that is not pinned is within 3" of an enemy relay marker, and no enemy units are within 3" of that marker, then it is destroyed. After 4 rounds the game is over, and if one of the players destroyed the enemy relay marker whilst keeping his own marker intact, then he wins.
- **5 Breakthrough:** After 4 rounds the game ends, and both players sum the point value of all units that they have in the opponent's deployment zone that are not pinned. The player with most points within the opponent's deployment zone wins.
- **6 King of the Hill:** After 4 rounds the game ends, and both players sum the point value of all units that they have within 12" of the table center that are not pinned. The player with most points within the table center wins.

## Multi-Player Games The game can be played with more than two players

by adjusting the rules a little, and these rules can also be used to play with armies consisting of allies from different factions. Essentially the game is still played with two opposing forces, however more than one player takes control of each force.

Army Composition: Split the amount of points the players are allowed to take evenly amongst players on the same side. Each side still follows the same restrictions across all players, meaning that in a 750pts game with two players per side each player may take 375pts worth of units, but only one of them may take a Hero unit.

**Preparation:** Players on the same side deploy units on the same table edge.

**Mission:** Points, objectives, deployment zones, etc. are counted for each side, not for each player.

**Playing the Game:** Whenever one side has the turn only one of the players may activate a single unit, and then activation passes to the other side.

**Psychic Powers:** Power dice are rolled per side and not per player. Players on each side all use power dice from the same pool.

### **Playing Bigger Games**

If you wish to play games that are bigger than described in the core rules you may use this table to determine what unit limits you must follow:

Points	Heroes
750	0-1
1500	0-2
2250	0-3
3000	0-4
3750	0-5
4500	0-6
5250	0-7
6000	0-8

Note that the rules were not designed with such large games in mind, and as such your playtime might substantially increase.

### **Army Special Rules**

Battle Standard: This unit and all friendly Infantry units within 12" roll one extra die and pick the highest result when taking morale tests.

Deathstrike Missile: After round 1 you may roll one die at the beginning of each round, and on a 4+ the missile is fired and you may place a marker anywhere on the table. Then roll one die, on a 1-2 the opponent may move the marker by up to 6" (must be in a valid position). All units within 6" of the marker take 2D6 hits with Piercing and Rending. The missile may only be fired once per game, and on the last round the missile is fired automatically. Demo Charge: Once per game, when this unit is activated, it may throw an Explosive (6", A9p). Executioner: This model may be deployed as part of an Infantry unit of same Quality. Whenever a unit

this model is part of fails a morale test you may sacrifice one model and re-roll the morale test.

Medipack: The unit gets Regeneration. Officer: When this model is activated you may pick

one friendly Infantry unit within 12" and roll one die. On a 4+ the target unit may use any action, even if it had been activated already (this does not count as its activation).

Spiritual Leader: This model may be deployed as part of an Infantry unit of same Quality. Whenever this unit uses an Assault action roll on this table:

Result	Effect
1-2	All models get Armored.
3-4	All models get Linked.
5-6	All models get Piercing.

Vox-Caster: If this unit is joined by a Commander, then the range of its Officer special rule is extended from 12" to 24".

## **Psychic Powers**

Warp Speed (5+): The psyker gets +3A in Melee until the end of the round.

Telekine Dome (6+): The psyker and his unit count as being in Cover until the end of the round.

Flame Breath (7+): Target enemy unit within 12" takes D6 automatic hits.

Banishment (7+): Target enemy unit within 12" must re-roll blocks until the end of the round. Prescience (7+): Target friendly unit within 12" gets Linked until the end of the round.

Psychic Shriek (7+): Target enemy unit within 18" must take a morale test. If failed the unit takes D3 automatic wounds.

## **Army Special Rules**

Blind: Whenever this weapon deals one or more hits roll one die. On a 4+ the target must re-roll successful hits until the end of its next activation. Brothers: This unit counts as having the Psyker(1) special rule, however only one model may manifest

psychic powers with it per round. **Deadly:** Whenever this weapon hits an Infantry model on a roll of 6 it takes D3+1 automatic wounds. Note that these hits can't be ignored by the Armored special rule.

Focus: This unit may move up to 3" in any direction after shooting. Vehicles with this rule may pivot to face any direction after shooting.

Gun Platform: This model has the same Quality value as its unit, it has no Melee attacks and doesn't take up transport space. If all models from the upgrading unit are killed this model is removed.

Resilient: Whenever this unit rolls a Shaken result roll one die, on a 4+ it is ignored.

Star Engine: This unit moves +3" when using Walk and +6" when using Run/Assault actions.

**Teleporter:** This unit moves +2D6" and may move through units and obstacles, ignoring terrain effects. Vibro: Whenever you roll 6 to hit with this weapon you may immediately roll one more attack die. This rule does not apply to attack dice generated by this.

## **Psychic Powers**

Reveal (6+): Target enemy unit within 18" doesn't get benefits from cover until the end of the round. Conceal (6+): The psyker and his unit get the Stealth special rule until the end of the round. Destructor (7+): Target enemy unit within 12" takes D6 automatic hits.

Renewer (7+): Target friendly model within 18" removes 1 Wound from its Tough count.

Guide (9+): Target friendly unit within 24" gets Linked shooting until the end of the round.

Executioner (10+): Target enemy unit within 24" takes 3p automatic hits.

**Army Special Rules** 

**Brothers:** This unit counts as having the Psyker(1) special rule, however only one model may manifest psychic powers with it per round.

**Mutations:** Whenever this unit fights in Melee, roll one die on the following table:

Result	Effect
1-2	All models get Rending.
3-4	All models get Piercing.
5-6	All models get +1 Attack.

**Slow:** This unit moves 3" when using Walk actions and 6" when using Run/Assault actions.

**Psychic Powers** 

Virus (6+): Target enemy unit within 24" takes one automatic hit for every 1 it rolls when shooting until the end of the round.

Rot (7+): All enemy units within 6" take D3+1 automatic hits with Poison.

Frenzy (7+): Target friendly unit within 12" gets Piercing Melee or +1A in Melee until the end of the round (pick one).

Doombolt (8+): Target enemy model within 18" takes D3x automatic hits.

Firestorm (8+): Target enemy unit within 24" takes D3p automatic hits.

Overload (10+): Target enemy unit within 24" takes D3+1 automatic hits and must take a morale test, regardless of casualties.

## **Army Special Rules**

Accelerator: All weapons of models this unit is part of extend their weapon range by +6".

Automated Repair System: Once per turn, if this unit is immobile, then it may try to repair itself. Roll one die, on a 4+ the vehicle stops being immobile.

Beacon: Friendly units that Deep Strike fully within 6" of this unit don't scatter.

Controller: Place a controller model next to this unit, which gives the unit the Sniper special rule. If this unit takes any wounds, then the controller model is removed (and the Sniper rule lost).

Drone: This model has the same Quality value as its unit, it has no Melee attacks and doesn't take up transport space. If no models from the upgrading unit are left this model is killed.

Flachette Discharger: Whenever enemy Infantry assaults this unit, the assaulting unit counts as moving through Dangerous Terrain.

Inhibitor: Enemy units assaulting a unit this model is part of reduce their movement by -D3". Inspirational: Friendly Infantry units within 12" of this model get the Fearless special rule.

Markerlight: Models may fire a markerlight at an enemy unit within 36" instead of shooting their weapons by taking a Quality test. If successful place 1 markerlight counter on the target. Friendly units targeting an enemy with markerlight counters may remove 1 to either ignore Cover or to get the Linked rule. Note that units may not fire markerlights and remove markerlights as part of the same shooting. Optics: This unit shoots at Quality 4+.

Seeker Missile: This weapon counts as a Missile Launcher (Limited) that may get the Indirect rule by removing 1 markerlight counter from the target. Shield: All models this unit is part of count as

having the Armored special rule.

**Support Turret:** This model has the same Quality value as its unit, it has no Melee attacks and doesn't take up transport space. If all models from the upgrading unit are killed this model is removed.

### **Army Special Rules**

(36", A6x, Rending)

**Chronometron:** The Hero and his unit may re-roll all failed blocks.

**Dread:** All enemy units within 12" must re-roll successful morale tests.

**Fabricator Claw Array:** Once per turn, if this unit is inside or within 2" of a Vehicle, it may try to repair it. Roll one die, on a 4+ the vehicle stops being immobile.

**Gaze of Death:** Whenever this unit is activated you may pick one enemy unit within 12" and inflict D3 automatic wounds.

**Gloom Prism:** The Hero, his unit and all friendly units within 12" get Fearless.

**Grand Illusion:** You may re-deploy D3 units within 12" of this unit after Scouts are deployed.

**Hive:** When this unit is activated you may target a friendly Scarab Swarm unit within 6", add one Scarab Swarm model to it and roll one die. On a 1 this unit takes one automatic wound.

**Hyperspace Hunter:** On the round in which this unit arrives from Deep Strike this unit counts as having the Rending special rule when shooting. **Mindshackle Scarabs:** The Hero gets the Fear special rule and enemies must re-roll successful morale tests from it.

**Necrodermis:** If this unit is killed any unit within D6" takes as many automatic hits as models in it. **Nightmare Shroud:** Once per game, when this unit is activated, target enemy unit within 18" must take a morale test.

**Resilient:** Whenever this unit rolls a Shaken result roll one die, on a 4+ it is ignored.

**Resurrection Orb:** Once per game, when this model fails a Regeneration roll, you may re-roll it. **Robot:** This unit has the Regeneration special rule and is Unwieldy in Melee.

**Shadowloom:** The Hero and his unit get the Stealth special rule.

**Technomancer:** The Hero and his unit may ignore wounds from Regeneration on 4+.

**Tesla:** For every 6 rolled when firing this weapon the target takes two additional automatic hits.

**Veil of Darkness:** Once per game, when the Hero is activated, he and his unit may immediately Deep Strike anywhere on the table.

Writhing Worldscape: All enemy units within 6" treat open ground as Difficult Terrain.

## **Army Special Rules**

**Acid Blood:** Whenever this model takes wounds in Melee the attacker takes 1 automatic hit.

Brothers: This unit counts as having the Psyker(1) special rule, however only one model may manifest psychic powers with it per round.

Deadly: Whenever this weapon hits an Infantry model on a roll of 6 it takes D3+1 automatic wounds. Note that these hits can't be ignored by the Armored special rule.

ignores Armored and is only blocked on rolls of 6. Mine Launcher: After this unit has moved, you may target one enemy unit within 48" and roll one die. On a 4+ the target takes D3+3 automatic hits, else you may Deep Strike a unit of 3 Spore Mines or 1 Mucolid Spore exactly 6" away from the target.

Monster: This unit has the Armored, Fear, Fearless and Impact(D3) special rules.

Spawn: After this unit has moved, you may place a new unit of 2D6 Termagants fully within 6" of it.

Spore Cloud: This unit and all friendly units within 6" get the Stealth special rule.

**Synapse:** When taking morale tests this unit and all friendly units within 12" roll one extra die and pick the highest result.

### Psychic Powers

Psychic Scream (6+): All enemy units within 6" must take a morale test. If failed they take D3 automatic wounds.

Catalyst (8+): The psyker, his unit and one friendly unit within 12" get the Regeneration special rule until the end of the round.

Warp Blast (8+): Target enemy unit within 24" takes D3p automatic hits.

Horror (9+): Target enemy unit within 24" must take a morale test and re-roll if successful.

Onslaught (9+): Target friendly unit within 24" may shoot after using Run actions until the end of the round.

Paroxysm (13+): Target enemy unit within 24" must re-roll successful shooting and melee attacks until the end of the round.

Army Special Rules

Aethersails: This unit moves +3" when using Walk and +6" when using Run/Assault actions.

Beastmaster/Court: You may deploy up to 10 models with this rule together to form a single unit.

Calcific: Whenever an Infantry model is killed by this weapon its unit takes D6 automatic hits.

Deadly: Whenever this weapon hits an Infantry model on a roll of 6 it takes D3+1 automatic wounds. Note that these hits can't be ignored by the Armored special rule.

**Dodge:** This unit gets Armored when in Melee. **Drugs:** Whenever this unit fights in Melee, roll one die on the following table:

Result	Drug
1-2	Hypex (Fear)
3-4	Adrenalight (+1A in Melee)
5-6	Serpenting (Linked in Melee )

**Fright:** Whenever a unit takes hits from this weapon it must take a morale test. If failed the unit immediately takes D3 automatic wounds. **Haywire:** When hitting Vehicles this weapon

**Haywire:** When hitting Vehicles this weapon ignores Armored and is only blocked on rolls of 6. **Pain:** This unit gains new special rules based on the current game round:

Round	Power	
1	n/a	
2	Regeneration	
3	Furious	
4	Fearless	

**Rampage:** This model gets +D3 Attacks in Melee if it is fighting a unit with more models. **Spirit Probe:** Friendly units within 6" may ignore

wounds from Regeneration on 4+.

Army Special Rules

**Beacon:** Friendly units that Deep Strike fully within 6" of this unit don't scatter.

**Brothers:** This unit counts as having the Psyker(1) special rule, however only one model may manifest psychic powers with it per round.

**Deadly:** Whenever this weapon hits an Infantry model on a roll of 6 it takes D3+1 automatic wounds. Note that these hits can't be ignored by the Armored special rule.

**Horrors:** If this model is killed in Melee place a marker next to the unit that killed it. Once both sides have attacked the target takes as many hits as markers, and all markers are removed.

## **Psychic Powers**

takes D6 automatic hits with Poison.

Acquiescence (8+): Target enemy unit within 12"
can't attack in Melee until the end of the round.

## **Army Special Rules**

**Datasmith:** Place a datasmith model next to this unit, which gives the unit the Regeneration special rule. If this unit fails to ignore any Wounds, then the datasmith model is removed.

**Deadly:** Whenever this weapon hits an Infantry model on a roll of 6 it takes D3+1 automatic wounds. Note that these hits can't be ignored by the Armored special rule.

**Deflagrate:** Whenever this weapon causes one or more wounds the target immediately takes as many automatic hits as wounds. This rule does not apply to wounds generated by these hits.

**Doctrines:** Whenever this unit is activated you may pick one of the following doctrines, which gives a special rule to all models:

Protector: Linked in Melee

• Conqueror: Linked in Shooting

**Contortion:** This weapon causes D3 wounds instead of just 1

**Haywire:** When hitting Vehicles this weapon ignores Armored and is only blocked on rolls of 6.

Joust: This unit gets Impact(+1).

**Machine Master:** Once per turn, if this unit is inside or within 2" of a Kastelan Robot, Dragoon, Ballistrarius or Dunecrawler, it may try to repair it. Roll one die, on a 2+ it may re-gain one wound.

**Radium:** For every 6 rolled when firing this weapon the target takes one additional automatic wound if it fails to block any hits.

**Repulsor:** For every 6 rolled when blocking ranged attacks the shooting unit takes one automatic hit. **Shock:** For every 6 rolled when attacking with this

weapon the target takes two additional hits. **Taser:** For every 6 rolled when firing this weapon the target takes one additional automatic hit.
